sounds good to me!

OK, I'll take comment #57 from Jayne.

So I'm responsible for comments 57, 78, 79, and 85.

Allison, I'll shoot for Tuesday COB to have them all coded if that's OK....

Is anyone willing to do NWEA's comments (#57). I just don't have time.

I found out that our original interpretation of "deliberative" rather than JB's interpretation is correct so now I have to "re-review the 500 comments I already reviewed (out of the 10,000 +)—not to mention all of my new responsibilities (WA CZARA, WQ10, Regional NPS Coordinator). Whine, whine...

Thanks Don. Good catches. Yes, there are only 85 comments. I slipped up and ended up reading the excel line # (which was 2 different than the actual comment #) for some of the later comments...thus the screwy #s. Since Jenny already did hers, Chris, if you could pick up 78, 79 and 85, that would be great. Then I think we'll have everything covered. Understand that you may need a little more time. Would wrapping things up by Tues of next week work? I'll consolidate all the coded comments I have and send out to the full group this afternoon and can add your's to the bunch next week.

(...unless perhaps he has only Comment #85 assigned to him). I just noticed in your coding instructions that he is on the hook for Comments 84-87, yet I only see 85 comments on your spreadsheet and in the docket online (<http://coastalmanagement.noaa.gov/nonpoint/oregonDocket/publicComments.html>). Further, Comment #84 was assigned to both Jenny and Chris. How do you want to resolve this? Also, it looks like no one is assigned Comment #s 78 & 79. Again, let me know how you want to resolve this.

Finally, although I am making progress with this assignment, I am not likely to complete it by COB today.

All--

See attached for updated instructions for how to code OR's public comments. I've assigned most to Jayne, Don and me with Jenny and Chris.

**Ex. 6 - Personal Privacy**

Since we'll be relying on Alan as the main tech reviewer for forestry and ag (the BIG ONES), I've given him a pass on coding so he can focus more on reviewing key documents.

I think it would be great if we could shoot for getting all the coding done by **next Friday, April 25th**. I already did most of my batch as an example and it only took me about a day. I know there are some meatier comments towards the end that may take a little more time to sort out but I think targeting next Friday would still be good.

Let me know if you have questions.

Happy coding!  
Allison
